mr. 24

*Swivel chair for
24-hour use*

mr. 24

The comfortable swivel chair for 24-hour use

Use in 24-hour workplaces, such as control centres, places the highest demands on seating furniture. In developing mr. 24 swivel chair, these demands have been consistently met: with perfect ergonomics, the highest quality standards and absolute robustness.

Seat and backrest upholstery are generously proportioned and robust and the adjustment functions are extremely user-friendly and durable. Even for people weighing up to 200 kg, mr. 24 is ideal for use in three-shift operations.

The "Similar" mechanism guarantees movement of seat and backrest in full synchrony with the body, with a large opening angle up to 32 degrees. The backrest pressure is individually adjustable.

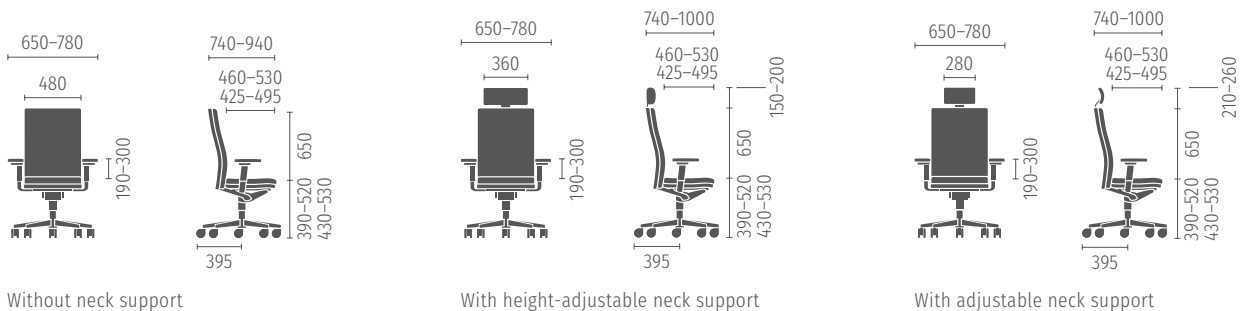

FUNCTIONS

- High backrest with integrated lumbar support, height- and depth-adjustable
- "Similar" mechanism with 32° opening angle, continuous adjustment and locking of the backrest tilt
- Sliding seat, depth-adjustable up to 60 mm
- 3D adjustable armrests lock in any position
- User weight up to 200 kg
- Two adjustable neck supports
- Complies with DIN EN 1335:2020 Typ A standard

Follows the most stringent requirements, is state of the art and provides comfortable seating for everyone. With the new office chair EN 1335:2020 Typ A standard, mr. 24 meets the requirements for a diverse user base and their various demands.

VERSIONS

Without neck support

With height-adjustable neck support

With adjustable neck support

Comfortable neck support

With leather cover and pleasantly soft upholstery, chrome-plated support, height-adjustable by 50 mm

Functional neck support

Tilt- and height-adjustable by 50 mm. With easy-care cover made of textured imitation leather, powder-coated support in black

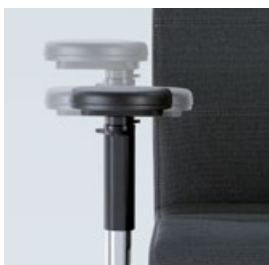

Upholstery

The generous seat/backrest upholstery has all-round edge protection.

Available options:

- 14 leather colours,
- 3 colours of the Phoenix fabric group, (21 colours in the extended range),
- 4 colours of the Pure fabric group

3D adjustable armrests

Extremely robust, optionally with leather covers. Lockable in any position, adjustable in height (110 mm), depth (80 mm) and width (2 x 50 mm to the inside and outside to adjust the clear width)

Lumbar adjustment

Perfect controls allow quick adjustment of the height and depth of the robust "Schukra" lumbar support to individual body size and weight

“mr. 24

*is the comfortable swivel chair
that provides plenty of support
even for longer working hours.”*
