quarterback

Generously proportioned, stylish and elegant

Generously proportioned and elegant – the quarterback is an office swivel chair which promises plenty of space for productive well-being at the very first glance. With its particularly high backrest, the quarterback provides great support, whether working on a concentrated task, or for a more mobile work force.

It is not just the generous backrest of the quarterback that convinces. With its dynamic lines, striking silhouette and a variety of feature and colour variants, quarterback sets the standards in style. If you're looking for a chair full of character, choose quarterback.

Clean lines for lightness and dynamics in the office

Comfortable and spacious, yet with remarkable lightness – the quarterback combines timeless design with perfect ergonomics. The armrests striving towards the front underline the dynamic expression of the side line and highlight the high level of seating comfort. A quality that is complemented by sophisticated technology and individual customisation options. The three types of upholstery to choose for the backrest not only support the back, but also enhance the elegant appearance.

Height-adjustable lumbar support for membrane and comfort membrane backrests

Height- and depth-adjustable lumbar support for membrane and comfort membrane backrests

Height-adjustable lumbar support, integrated into the backrest of the fully upholstered version

Basic armrests
Height-adjustable

4D adjustable armrests
Adjustable in height, width and depth, with swivelling soft-touch covers

Polished connection to go with polished aluminium base

More relaxed working
The height and tilt adjustable neck support with optional clothes hanger

Intuitive operation

The controls are ergonomically arranged and bear clear function symbols which make adjusting the seat height and angle and the backrest quick and simple

Well-being in the office
quarterback offers
you optimal support
in all positions

Optimal thigh support

With 380 mm seat depth and seat depth adjustment of up to 60 mm, the quarterback offers the ideal prerequisites for ensuring your thighs sit just right, no matter what size you are

Individually adjustable

The seat tilt can be adjusted by four degrees, allowing a slightly forward leaning seat position adjusted to your personal needs

Greater comfort

The large castors are ideal for any type of floor covering

Comfortable teammates

Every top performer needs a good team. This is why the traditional quarterback swivel chair is accompanied by four-leg models (with or without castors) and cantilever chairs. They all take up the style elements of the quarterback family and thus demonstrate their commitment to comfort and ergonomics. This is particularly evident in

the typical backrests: they are as wide as the swivel chair, and available in the same types of upholstery. But aesthetically too, the four-leg model and the cantilever chair are on a par with the rest of the quarterback family: the design combines lightness and dynamics, and was honoured with the reddot award.

winner

Membrane back

The innovative 3D membrane allows light to shine through, creates an open impression in the room, whilst protecting the user's back from unwelcome gazes

Comfort membrane back

The slim upholstery emphasises the quarterback's dynamic lines and is proof that sitting comfort is not about the thickness of the upholstery

Fully upholstered back

In this version, the quarterback offers all the comfort of an upholstered model – yet the integrated membrane creates a particularly slim-line effect

Available in 5 membrane colours

Natural white

Light grey

Anthracite

Sage green

Black

Uniquely diverse

Colours, cover fabrics,
frame variants – an almost
infinite number of possible
combinations await you

Sustainability down to the last detail

At Sedus, sustainability and quality “Made in Germany” have formed part of our key corporate principles for more than 50 years. Principles which are united in the Sedus quarterback and which are reflected in its recycling-oriented product design, ecologically tested materials, resource-efficient manufacturing demonstrating energy awareness and ongoing quality tests.

For example, instead of a conventional paint finish, a solvent-free powder coating is used on quarterback. State-of-the-art and extremely environmentally friendly electroplating, in which all production residues containing metal are recycled, is also part of Sedus’ quality and sustainability philosophy.

Around the world, Sedus adheres to the principles of the UN Global Compact for human rights, labour standards, the environment and anti-corruption
